DETAILED ACTION

Allowable Subject Matter

1. Claims 1-40 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Although, the best prior art of record to Clark et al. (US 6,378,770) teaches an automated teller machines and method of replenishing the same comprising a plurality of user interface/panel for conducting various transactions.

However, Clark et al. taken alone or in combination of other references, fail to specifically teach or fairly suggest that the system and method comprises at least one software application is operative to determine the first and the second types of the first and the second input devices, wherein the at least one software application is operative to cause a first user interface to be output through the first display device responsive to the determined first type of the first input device, and wherein the at least one software application is operative to cause a second user interface different from the first user interface to be output through the second display device responsive to the determined second type of the second input device wherein the recited term "type" corresponds to the physical features and/or capabilities of the input device, and not any form of user or operator designations associated with the persons using the input devices as set forth in the claims and indicated by the "BPAI Decision" and "Decision on Reconsideration".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
